- All works to comply with relevant WHS, EPA, and Council regulations
- Safety signage, barriers, and exclusion zones as required

PROJECT SPECIFIC ASSUMPTIONS

- Lift access available

PROJECT SPECIFIC EXCLUSIONS

- Hazmat beyond quoted

TERMS AND CONDITIONS

1. DEFINITIONS

Contractor – The demolition contractor issuing this quotation. Client – The person or entity accepting the quotation. Works – The demolition and associated services described in the quotation. Quote – The written price, scope, and assumptions issued by the Contractor.

2. ACCEPTANCE OF QUOTE

The Client accepts the Quote by: a) signing or otherwise approving it; b) issuing a purchase order or confirmation (including email); or c) permitting the Contractor to commence the Works. These Terms & Conditions form part of the agreement upon acceptance.

3. LICENSING & COMPLIANCE

The Contractor warrants that it holds all licences required under the Queensland Building and Construction Commission Act, including any demolition or asbestos licences required for the Works. All Works will be performed in accordance with: Work Health & Safety Act 2011, Building Act 1975 (Qld), Environmental Protection legislation, relevant Australian Standards, and applicable Council regulations and permits.

4. GENERAL EXCLUSIONS

The Works are limited to the specific items listed in the Quote. Unless clearly included, the following are excluded: Dilapidation reports; Disconnection of utilities (water, power, gas, sewer, NBN); Services locating and/or surveying; Edge protections, platform scaffold, and/or chute; Access equipment and/or plant required to haul materials, equipment, and/or plant to and from work areas; Maintaining access and/or creating access necessary to the execution of this contract Scope of Works; HVAC decommissioning and/or removal; PIR/PUR/PU polyurethane/polystyrene demolition and/or removal; Hazardous and/or putrescible materials removal; Setting out; Engineering and/or propping; Structural demolition beyond what is stated; Temporary weather or waterproofing; Underground obstructions, tanks, footings, or slabs beyond what is stated; Traffic control, temporary works, site fencing, or engineering; Make-safe works or rectification of pre-existing damage or defects; Making good, patching, repairing, rectifying, or removing inundations; Floor and/or wall grinding or any other secondary floor/wall finishes; Concrete, blockwork, brick: cutting, coring, and/or flush cutting; Waterproofing removal; Protection of work to neighbouring properties and of remaining elements, unless expressly stated; Loose items removal and/or relocation; Working at heights; Vegetation and/or soil removal and/or reinstatement; Any works not expressly described in this Quote; and Restrictions imposed by other contractors or subcontractors.

5. SITE ACCESS & SERVICES

Unless clearly noted otherwise, the Contractor has priced the Works on the assumption that: Continuous and unrestricted access will be provided for all work areas; All utilities required to be disconnected will be disconnected before commencement and disconnection certificates made available prior to works commencing; Water and power will be supplied by the Client (P.C. item) including where applicable: 3-phase, 5-pin, 50-amp power within 20m of any robot demolition SoW, and/or 3-phase, 5-pin, 32-amp power within 20m of any high-frequency cutting and/or floor grinding SoW; A safe, clear area for loading and unloading plant and materials will be provided in close proximity to Contractor's work areas; Parking for Contractor vehicles will be provided; Secure, lockable site storage for tools, plant, and machinery will be provided for the duration of the Works; and No stairs, steps, or lifts are required to access work areas or load-out zones unless stated.

6. SITE CONDITIONS & PROTECTIONS

The Client will install permanent protections to remaining surfaces; The Client will remove or protect all salvageable items prior to commencement — any loose item remaining pertaining to Initial Services Scope of Works is deemed to be Initial Services property; The Client will provide site security (fencing, hoarding); No public or other trades will enter the demolition or load-out zones during working hours; No stand-down time is expected; Noise, vibration, and dust-generating work is permitted during working hours; and If environmental monitoring or controls are required, these will be provided by the Client.

7. OPERATIONAL ASSUMPTIONS

All permits, closures, service location certificates, and approvals are provided by the Client before commencement; Initial Services is responsible for temporary protections on areas directly adjacent to its Scope of Works as required; Use of trucks and/or skip bins for material load-out and deliveries; Demolished materials can be stockpiled on site for the duration of works; Hot works, noise and dust generating works are allowed with protections put in place by Client; The site will be safe and ready for demolition to commence without delay; and The Contractor may carry out the Works during normal working hours without restriction from neighbours, body corporates, councils, or other third parties.

8. SITE VISIT ALLOWANCE

Unless clearly noted otherwise, this Quote allows for completion of all Works in one (1) site visit only. Stand-downs, delays, or additional visits caused by the Client or third parties may be charged as a Variation.

9. VARIATIONS

A Variation includes any change requested by the Client or required due to hidden or unforeseen conditions, including but not limited to: hazardous materials, buried structures, additional disposal loads, restricted access, or additional machine hours. Variations will be: a) priced and issued in writing; and b) approved by the Client before proceeding (email approval is sufficient). If urgent for safety or structural reasons, the Contractor may proceed without prior approval, and the Client agrees to pay reasonable associated costs.

10. CLIENT RESPONSIBILITIES & SITE ACCESS

The Client must ensure: Safe, clear, and continuous access for machinery, trucks, and personnel; Utilities are disconnected prior to commencement; The site is free of occupants, vehicles, personal items, or obstructions; Boundaries, easements, and adjoining structures are identified; and Permits not expressly included in the Quote are obtained by the Client. Delays or additional costs caused by the Client or third parties may be charged as a Variation.

11. UTILITIES & SERVICES

The Client is responsible for arranging the disconnection of all utilities. If undocumented, live, or unexpected services are discovered, the Contractor may stop work until the issue is rectified and may charge reasonable additional costs.

12. HAZARDOUS MATERIALS & ENVIRONMENTAL REQUIREMENTS

If asbestos, contaminated soil, chemicals, or hazardous substances outside of what may have been included in this Quote are identified during the Works: Work will cease in the affected area; The Client will be notified; and Removal and disposal will be treated as a Variation. All waste will be disposed of at approved facilities in accordance with Queensland regulations.

**13. SAFETY & WORK METHOD**

Demolition is high-risk construction work. The Contractor will prepare and follow required Safe Work Method Statements (SWMS) and will control the site during the Works. The Client must not direct workers, interfere with operations, or enter the work zone without permission.

14. PERMITS & APPROVALS

Unless stated otherwise in the Quote: Council demolition permits are the Client's responsibility. The Contractor will provide licences, SWMS, and demolition plans required for such permits if requested.

15. DAMAGE TO PROPERTY

The Contractor will take reasonable care during the Works but is not responsible for: Existing defects or pre-existing structural damage; Damage caused by unmarked or unknown underground services; The movement or failure of adjoining structures; and Damage arising from inaccurate or incomplete information provided by the Client.

16. TIMING, WORKING HOURS & DELAYS

Unless where clearly noted otherwise, the Works are priced on the basis of standard working hours. No allowance is made for night works, weekend works, public holidays, or out-of-hours operations. The Contractor will make reasonable efforts to meet the program and will apply in writing for an extension of time if delayed by unforeseen circumstances, weather, site conditions, or factors beyond its control. The Contractor is not liable for delays caused by weather, utility providers, Council, other contractors, restricted access, industrial action, or external constraints. Additional costs arising from delays not caused by the Contractor may be charged as a Variation. Unless clearly noted otherwise, noise, vibration, dust-generating work is assumed permissible during working hours.

17. PAYMENT TERMS (BIFA COMPLIANT)

Payment claims may be issued under the Building Industry Fairness (Security of Payment) Act 2017 (Qld). Payment is due 25 days from the date of invoice. The Client must provide a Payment Schedule within the statutory timeframe. Failure to provide a Payment Schedule will make the full claimed amount payable. The Contractor may suspend work for non-payment. No retentions apply to the Works unless otherwise negotiated and confirmed in writing.

17A. FUEL PRICE ADJUSTMENT

The Quote is based on fuel prices not exceeding \$2.50 per litre. Should fuel prices exceed this amount during the execution of the Works, the Contractor reserves the right to charge the Client the additional cost difference incurred.

18. OWNERSHIP OF MATERIALS

All demolished materials, scrap, or salvage become the property of the Contractor unless stated otherwise in the Quote. Materials supplied by the Contractor remain its property until payment is received in full. In the event of non-payment, the Contractor reserves the right to remove materials from the site without further notice.

19. TERMINATION

Either party may terminate the agreement for substantial breach by providing written notice. Upon termination, the Client must pay for: Works completed to date; Approved Variations; and Reasonable demobilisation costs.

20. LIMITATION OF LIABILITY

To the extent permitted by law, the Contractor's liability is limited to the value of the contract. The Contractor is not liable for indirect, consequential, or financial losses incurred by the Client.

21. GOVERNING LAW

These Terms & Conditions are governed by the laws of Queensland, Australia. Disputes will be resolved in the appropriate Queensland jurisdiction.

ACCEPTANCE

By signing below, the client acknowledges they have read, understood and agree to the Terms and Conditions of this quotation.
